Academic years covered	2023-24			Date of most recent review	8 th March 2024
Number of pupils on roll	219	Total sports premium fund	£26,963	Date of next review	31 st July 2024

Total amount allocated for 2022/23	£18480
Carry forward into 2023/24	£8,763
Total amount allocated for 2023/24	£18,200
Total amount of funding to be spent and reported on for 2023/24	£26,963
Total amount to carry forward into 2024/25	£TBC

Swimming data – reported in July

SPORTS PREMIUM KEY INDICATORS

1. The engagement of [all](#) pupils in regular physical activity – Chief Medical Officers guidelines recommend that primary school pupils undertake at least 30 minutes of physical activity a day in school
2. The profile of PE and Sport being raised across the school as a tool for whole school improvement
3. Increased confidence, knowledge and skills of all staff in teaching PE and sport
4. Broader experience of a range of sports and activities offered to all pupils
5. Increased participation in competitive sport

SPORTS PREMIUM STATEMENT

ALL SAINTS C of E JUNIOR SCHOOL

SPORT PREMIUM FUNDING STRATEGY 2023-24

Our aim at All Saints C of E Junior School is to enrich children with the opportunities to thrive within physical activity environments and broaden their sporting horizons. We believe that this can be achieved through multiple avenues with staff and students working in correlation to produce pathways for children to excel.

Our priorities for the use of Sports Premium will be to:

- Offer effective CPD training for staff with the intention for that to be transferred into both supportive and knowledgeable teaching to aid a child's development throughout their time within the school.
- Provide children with the equipment for breaks and lunchtimes to encourage more active choices during a child's independent time.
- Offer unique and diverse opportunities for children to become more engaged with a variety of sports-related activities that they may never have the chance to experience.
- Offer and deliver a range of after-school clubs which help expand the children's knowledge of various sports and encourage regular daily exercise.
- Implement all necessary provisions for children to attend external sports events.
- Engage all children in any form of physical activity or exercise that they find enjoyable and beneficial to their physical and mental health.

At All Saints C of E Junior School, we understand the necessity for our children to be involved in as much physical activity as possible. With this in mind, our mentality will be focused around finding an activity that every child can enjoy participating in. It is our belief that a child who does not "like sport" is not in fact a child who is completely against all forms of exercise but instead has not yet found the physical activity that best suits them. It is our role as a school and a community to aid a child in discovering this through the demonstration of our own enthusiasm and the implementation of exposing a child to the possibilities within a healthy, active lifestyle.

Current Participation - *reported in July*

What does the research say about effective use of the sports premium?

The Impact of Physical Inactivity

-
- Global estimates display that approximately 25% of adults aged 18 or over are insufficiently active worldwide and consequently means physical inactivity is responsible for 9% of early deaths making it one of the leading risk factors for global premature mortality. This then creates a priority for our children to

have provisions put in place which encourages routinely occurring physical activity with the hope that it will continue throughout their adolescent years and adulthood. (Lahart *et al*, 2019)

- One third of children are overweight or obese by the time they leave primary school. Data from Sport England's Active Lives Children and Young People Survey shows that only 17.5% of children meet the Chief Medical Officers' guidance for how much activity children should be doing – at least 60 minutes every day. Links below evidence the research of this.
- <https://www.sportengland.org/research/active-lives-survey/active-lives-children-and-young-people/>
- https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/213739/dh_128144.pdf

What is the role of the practitioner?

- The Department for Education (DfE) is reviewing the content of Initial Teacher Training (ITT). This will include looking at how it links to the Early Career Framework to ensure that teachers have the right training and development to deliver high quality PE lessons.
- DfE will also work with schools, teaching unions and the Association for Physical Education to explore how further to support PE teachers and schools to deliver high quality PE lessons. This will include sharing examples of best practice from schools who have successfully engaged pupils by offering modern, engaging and fun PE and sport lessons.
- Educators will need to foster positive attitudes to physical education among pupils and staff.
- Competition is a key element of sport. Working alongside the Ascot and Maidenhead School Sports Partnership, there must be a desire to participate in as many events as possible to ensure that the children have the opportunity to participate in scenarios most similar to that of a natural sports environment. This requires dedication and organisation from staff members.

Empowering Young People

- To reach the least active groups of pupils, we must first understand the barriers they face to take part in sport and physical activity. This will come from the child survey where they will be asked questions related to this topic regarding their levels of participation.
- Enabling children to become young sports ambassadors to allow them the freedom to create their own ways to exercise and play competitively. This will coincide with a mentoring scheme where the children will learn how to become sports leaders which will also allow us to greater understand a range of activities that appeal to the different age groups.

Raising Awareness

- Research has found that the majority of UK adults (including teachers) are unaware of the amount of physical activity that children and young people should be doing every day. <https://www.youthsporttrust.org/news/thousands-schools-mark-yst-national-school-sport-week-2019>
- Parents often over-estimate the amount of exercise a child receives at school and therefore underestimates the need for it within their own daily routine outside of the setting.
- It is important that parents and staff are educated in the necessity of not only levels of exercise but also dietary requirements to ensure a child leads a healthy, active lifestyle.
- This will work in correlation with our 'Healthy Eating' policy within the school's provisions to enable all have the correct education into the importance of a good balance between diet and exercise which will be threaded throughout the school from Year 3 to Year 6 in PHSE and assemblies.

Response from the NEEDS Analysis

Our priority regarding the Sports Premium budget is to ensure that children have the ability and the access to a range of opportunities that they both need and want. Data has been collected from surveys carried out with the children regarding their own personal situations within the world of sport, exercise and physical activity and will be reported in July.

skills in order for them to meet the NC levels by the end of KS2.	5	term to give some children in years 5 and 6 a boost.	staff gained knowledge and skills observing.		to provide cost-effective swimming lessons in the future.
Due to local priorities, when our children leave ASJS we want them to have a secure understanding of water safety and self-rescue.	1 2 3	'Drowning Prevention Week' Assembly and Water Safety lessons/ activities	95% of Year 6 left ASJS with water skills and the ability to self-rescue.	£200.00	Staff training
We continue to develop the environment for our PE lessons, broaden the range of activities provided and increase participation in competitive sport.	1 2 3 4 5	The purchase of netball posts and equipment to aid PE lessons, netball club, inter-house netball tournament and join the local school's netball B league.	The court markings and equipment have helped children engage in netball during PE lessons. Netball club was funded and attendance increased from 10 to 28. All children participated in the inter-house netball competition. Children attending netball club are more prepared for the league netball matches.	£1,123.43	Continue to develop netball teaching and use of the lines for other activities in lessons. Introduce a more inclusive netball club in 2023/24, hold an inter-house netball competition and sign up to the local school's netball league.
