

## Growing Club – Winter 2024

The children from the Growing Club are excitedly planning for the next growing season, using their creativity to draw pictures of the plants they want to grow. As they sketch out their ideas, they explain their reasoning—choosing certain vegetables for their taste, flowers for their vibrant colours, and herbs for their fragrance. Their thoughtful planning reflects the lessons they've learned, as they consider factors like space, sunlight, and how to care for each plant.

To celebrate Imbolc, or St. Brigid's Day, the children gathered in the garden, looking for signs of waking Nature. They tried craft St. Brigid's crosses from grass, which was not an easy task.
